Frameworks & Libraries: React.js, Next.js, Tailwind CSS

Tools & Version Control: Git, GitHub, VS Code, Postman

Concepts: Responsive Web Design, Mobile-First Development, Component-Based Architecture, SEO Basics, RESTful API Integration

PROFESSIONAL EXPERIENCE

Frontend Developer

Freelance | 2025 – Present

- Designed and implemented highly responsive user interfaces using React and Tailwind CSS, improving overall site accessibility and user engagement.
- Built modular, reusable UI components that streamlined the development process and ensured consistency across multiple pages.
- Collaborated on the integration of frontend features with backend RESTful APIs to ensure seamless data flow and user interaction.
- Optimized website performance and load times by implementing efficient coding practices and image management.

KEY PROJECTS

EMERA Landing Page

Engineered a high-performance landing page using Next.js and pure CSS. Prioritized SEO and semantic HTML.

Irevault Profile Management

Developed core frontend components for user profile management. Implemented client-side form validation.

OyaPay Clone

Replicated complex financial UI layouts using HTML and Tailwind CSS with a mobile-first focus.

EDUCATION

Ekiti State University | Graduated 2025
